Limited Edition Official Ferrari
Calendars & Books come to India this
December - with an exclusive
partnership between

Raupp Design GmbH &
www.theluxecafe.com

The Luxe Café, India's leading luxury lifestyle webzine, has added another feather in its hat of premium luxury pursuits, by becoming the exclusive representative and distributor for the official Ferrari Calendars and art Books in India.

Entering into a unique association with the German based Raupp Design GmbH, the long term partner of prestigious Italian sportscar manufacturer Ferrari, for exclusive wall calendars, books and photo art, The Luxe Café will be bringing in this range of printed collectible art for the first time to India. With this endeavour, The Luxe Café is reaching out to Ferrari lovers and auto design enthusiasts alike, who can then purchase the official Ferrari Calendars 2016, the official Ferrari Book and exclusive art prints from <http://shop.theluxecafe.com>, starting December 2015. A direct e-tail tie-up of this league is a major feat in the Indian luxury webzine sphere, and through this partnership, The Luxe Café is also glad to be promoting the work of Günther Raupp, one of the most sought-after automobile photographers in the world, who is the man behind the Official Ferrari Calendars and Book.

The Official Ferrari Calendars are available in two variants: FERRARI MYTH 2016 & SCUADERIA FERRARI 2016. The Ferrari Myth is a limited edition cult calendar for which circulation is strictly limited across the globe, adding to its exclusivity. The Scuderia Ferrari Calendar encompasses the highlights of Ferrari's current Formula 1 season in pictures taken by the world's best Formula 1 photographers – a must have for all Formula 1 fans. Also available for purchase on the site are the visually stunning large format Official Ferrari Book hailed as the 'Ferrari Bible' and the recently launched book celebrating 85 years of the Italian design icon, Pininfarina. These together form a highly sought after duo of coffee table art books for car lovers, photophiles, collectors and connoisseurs. With these available on home shores, you can go ahead and indulge your love for the fast and furious Ferrari cars and the inimitable Italian design aesthetics.
